

The important point during the Conference VIBSYS is a competition for young scientists on ***the best presentation of the research results by the young researcher.***

***The rules of the young researcher competitions:***

- The work should be an original research.
- The candidate should be less than 35 years in age. A statement of the researcher that confirms her/his age should be submitted during the registration.
- The candidate should be the main researcher of the presented work.
- If the paper has to be considered for the award, the candidate must be a registered participant of the conference.

***The competition committee*** will take into account:

- originality and quality of the research presented,
- unique research methodology and/or modern methods,
- possibility of practical use of results,
- precision and clarity of the presentation.

All presentations accepted for the session will be judged for ***the best young researcher award*** which includes:

- ***a certificate*** of the first, second and third place diploma,
- ***a cash prize.***
