A Guide to Making  
Your Science Matter

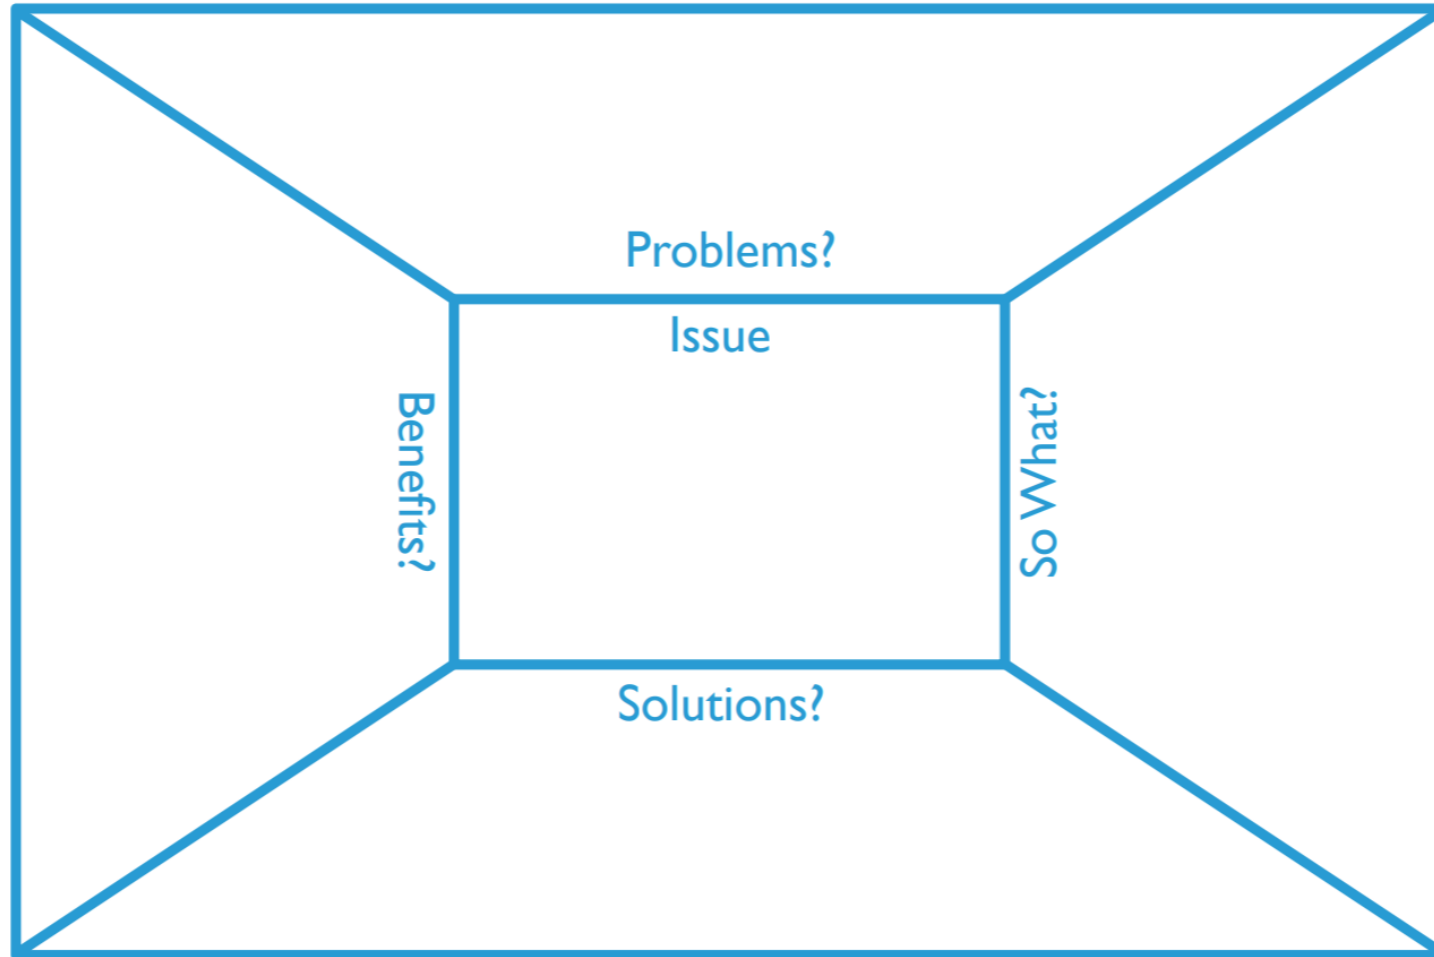

## ESCAPE from the IVORY TOWER

Foreword by Donald Kennedy

Nancy Baron

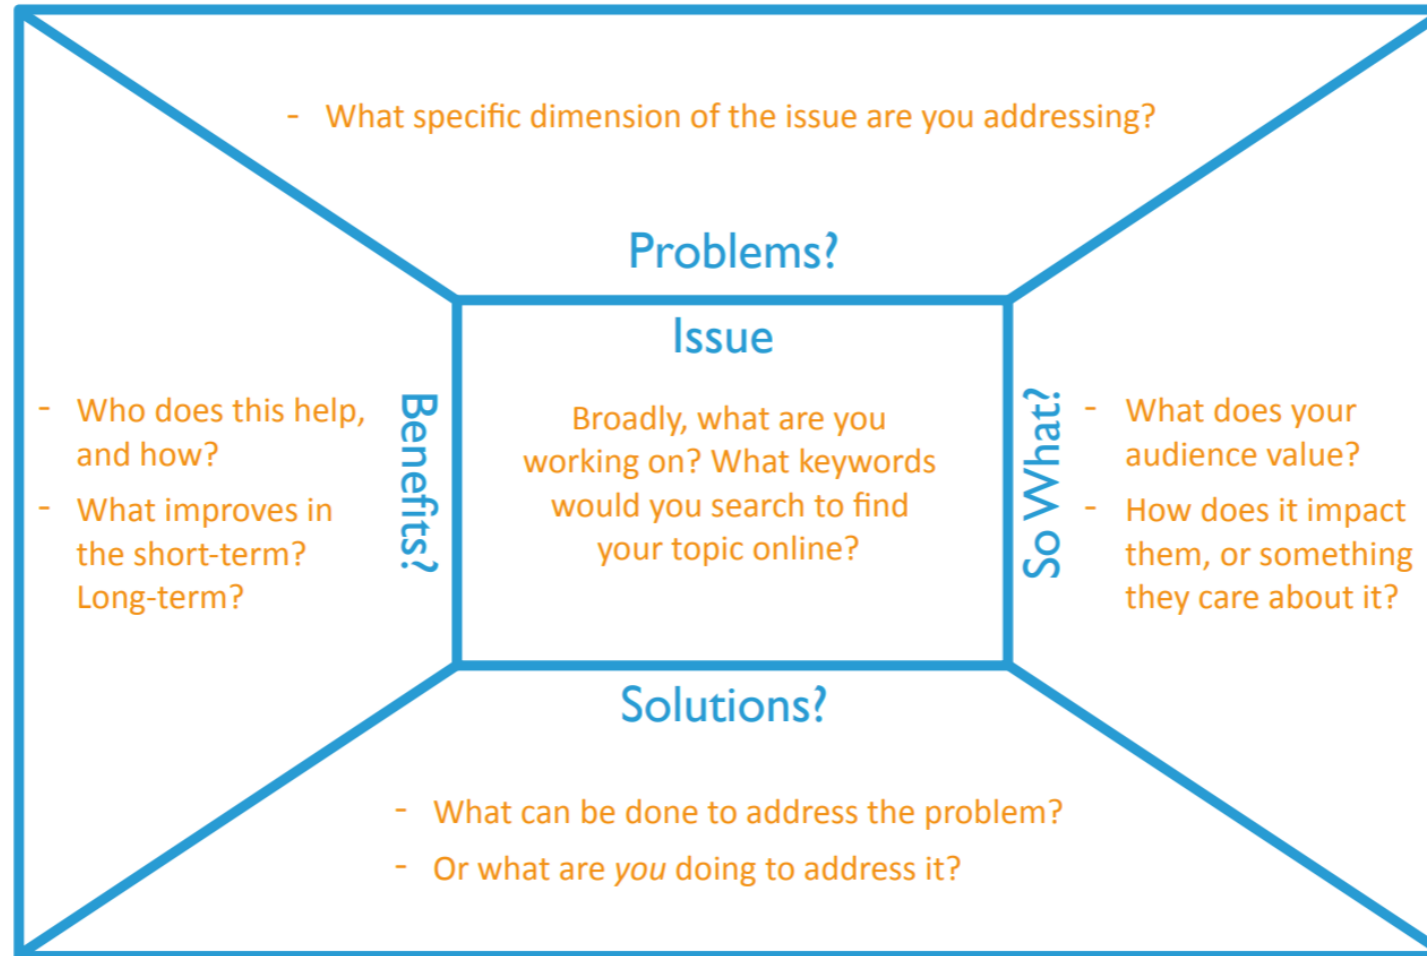

# The Message Box

Audience:

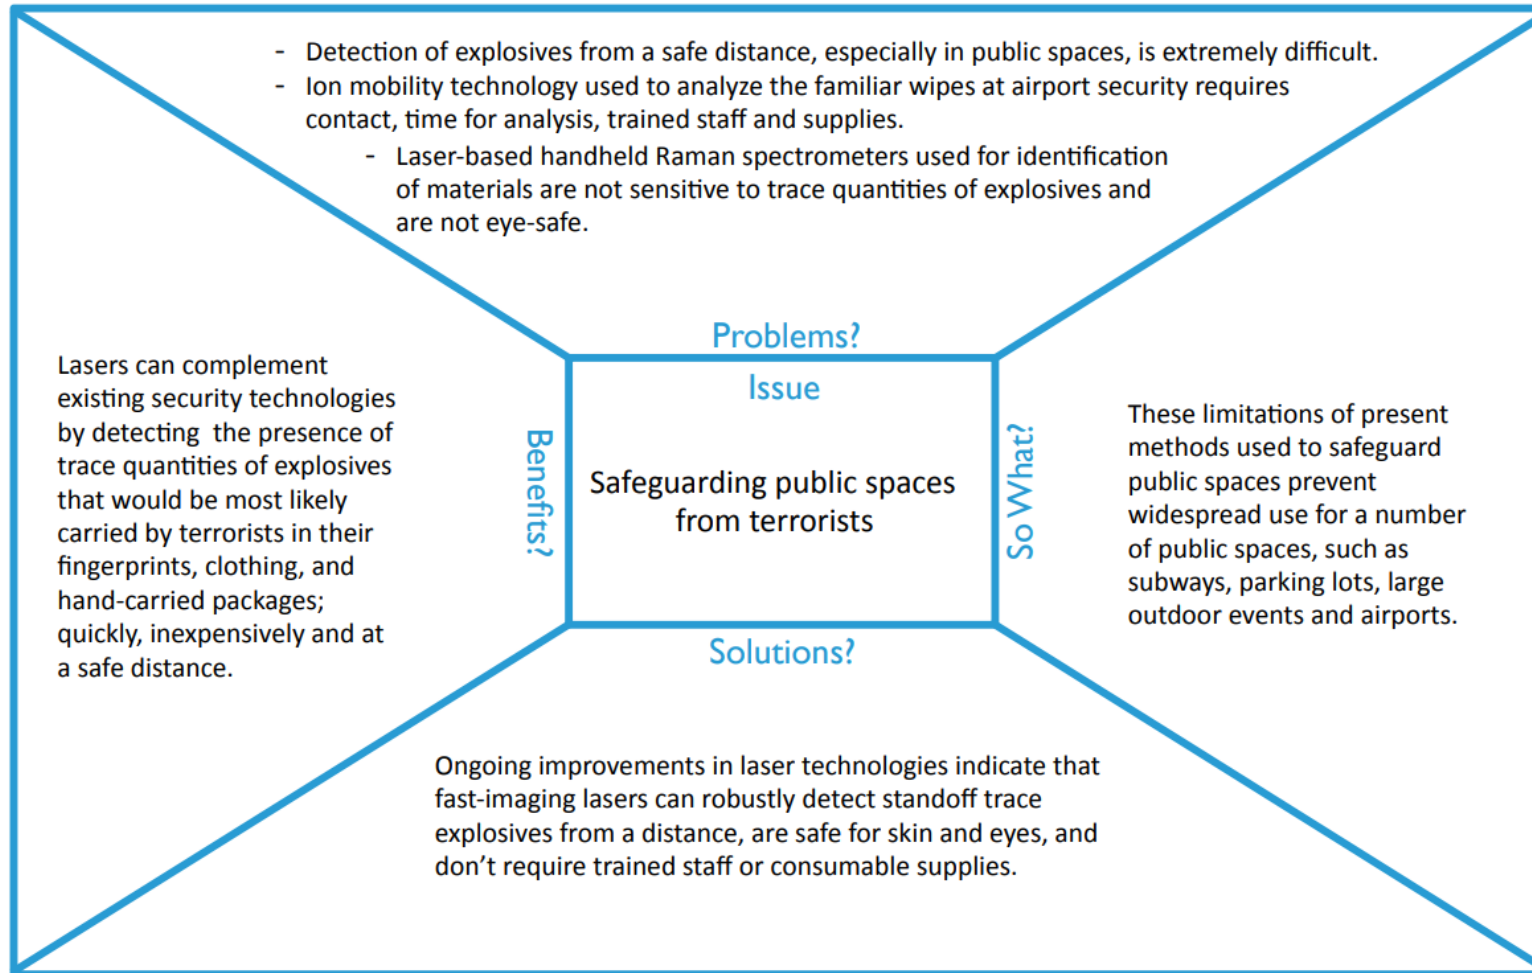

# The Message Box

**Audience:** Who is impacted by this? Who can change this? Who cares about this?

# The Message Box

**Audience:** Agencies, Industry, & Scientists working on detection of explosives

# Let's practice

1. In teams, decide on a PhD-related scientific problem you want to tackle with AI
2. Fill out a message box to define the problem, its motivation, and envisioned solution
3. Think about the ingredients needed to create an AI system that would help solve the problem
4. We'll discuss all the ideas together
